

*because
some people
can only dream
of getting
a good night's
sleep.

Philips Respironics products are designed to give people with debilitating sleep disorders the essential sleep they need to be healthy. By investing time in understanding people's needs, we've created a portfolio of 60,000 innovative patents that will enhance the quality of life for people everywhere. There's more where that came from at www.philips.com/because

PHILIPS
sense and simplicity
