

# °CLIMATE LEADERS SUMMIT 2009

DRAFT AGENDA • 15 DECEMBER, 2009

## OVERVIEW

Welcome to the °CLIMATE LEADERS SUMMIT 2009, a forum for the exchange of practical policy advice between government leader and CEOs of some of the world's leading low carbon technology companies and financial institutions, Corporate leaders will announce investments in – and deployment of – new energy technologies. Policymakers will announce policies that will incentivize the rollout of key clean energy technology infrastructure.

Together, business leaders and sub-national and local government leaders will demonstrate how they are working together to build the low-carbon economy of the future. These commitments will create critical momentum for the United Nations Climate Change Conference.

## MORNING AGENDA

## AFTERNOON AGENDA

### 2:15 – 5:00pm Concurrent High Level Roundtable Meetings

The °Climate Group's *Breaking the Climate Deadlock* reports show how new technologies, together with the right policies, can put us on track to reach 2050 targets. The afternoon's set of roundtables bring technologies of the future, including electric vehicles, LED lighting, smart buildings and advanced renewable energy - together with the policies that are needed to get us on a path to 2050. This, combined with partnerships between developed and developing country regions, creates the first comprehensive global effort focused on building a low carbon economy.
